Contacting Customer Service

If at any time you have a question about your portal account, the site or your loans, please reach out to CBRE Loan Services Customer Service at +1 800 456 1443 or email us at CBRELSCustomerService@cbre.com.

Accessing the Borrower Portal

To sign in to your Borrower Portal account, visit cbreloanservices.com/login. We recommend that you bookmark this page for easy access.

Borrower Portal Login Page

The screenshot shows the Borrower Portal Login Page. The header features the text "Loan Services" in a large, dark green serif font on the left, and "Borrower Portal" in a smaller, dark green sans-serif font on the right, separated by a thin green horizontal line. Below the "Loan Services" text is a login form with a label "Loan Number" next to a text input field, and a "Submit" button below it. To the right of the login form, there is a link "New user in the borrower portal? Register". At the bottom of the page, there is a footer with the text "© 2022 CBRE, Inc. All rights reserved." on the left and the "CBRE" logo on the right. The background of the page features a photograph of modern multi-story apartment buildings.

CBRE

Registering for a new account

From the main login page, look for a link to **Register**. You will be asked to provide information about one of your loans that we will use to verify your identity and to add the loan to your servicing dashboard. If you have multiple loans serviced by CBRE, you will have the opportunity to add these to your dashboard after the account is created.

1. The first step is to enter your personal information to create your profile for the site. The email address that you provide here will become the username for your portal account. Please note that to change this address later, you will need to contact Customer Service for assistance.

New User Registration, Step 1

The screenshot shows the 'New User Registration' page for the 'Loan Services Borrower Portal'. The page features a header with the 'Loan Services' logo and a background image of modern apartment buildings. The registration form is titled 'New User Registration' and indicates it is 'Step 1 of 3'. It prompts the user to 'Please enter the required information to complete the registration process.' The form includes fields for 'First Name' (Sally), 'Last Name' (Sparrow), 'Email Address' (sallysparrow@email.com), 'Company Name' (Sit Amet, LLC), and 'Phone Number' (555-555-8474). There are 'Back' and 'Next' buttons at the bottom of the form. To the right of the form, there is a 'Need help?' section with the text 'For technical assistance, please contact Customer Service.' The footer of the page contains the copyright notice '© 2022 CBRE, Inc. All rights reserved.' and the CBRE logo.

2. For the next few steps you will need the information from your most recent billing statement. If you have recently closed the loan and have not yet made a payment, please contact Customer Service for assistance.
 - When entering your loan number, make sure to include all nine digits as displayed in your billing statement, without any spaces or dashes.
 - The origination date can be typed in the format MM/DD/YYYY or selected using the calendar icon.
 - Enter your last payment amount without a currency symbol or commas and include all decimal places.

New User Registration, continued

The image displays two sequential screenshots of the 'New User Registration' process. The first screenshot, labeled 'Step 2 of 3', shows a form with the following fields: 'Loan number (9 digits)' with the value '686362756', 'Origination date' with a calendar icon, 'Borrower entity name' with the value 'SIT AMET, LLC', 'Relationship to loan' with a dropdown menu showing 'Principal Owner', and 'Last payment amount' with the value '67355.12'. At the bottom are 'Previous' and 'Next' buttons. The second screenshot, labeled 'Step 3 of 3', shows a form with the following fields: 'Billing address' with the value '7668 Vivamus Avenue', 'Address line 2' with the value 'Suite 100', 'ZIP code' with the value '13945', 'City' with the value 'Madison', and 'State' with the value 'OK'. At the bottom are 'Previous' and 'Register' buttons.

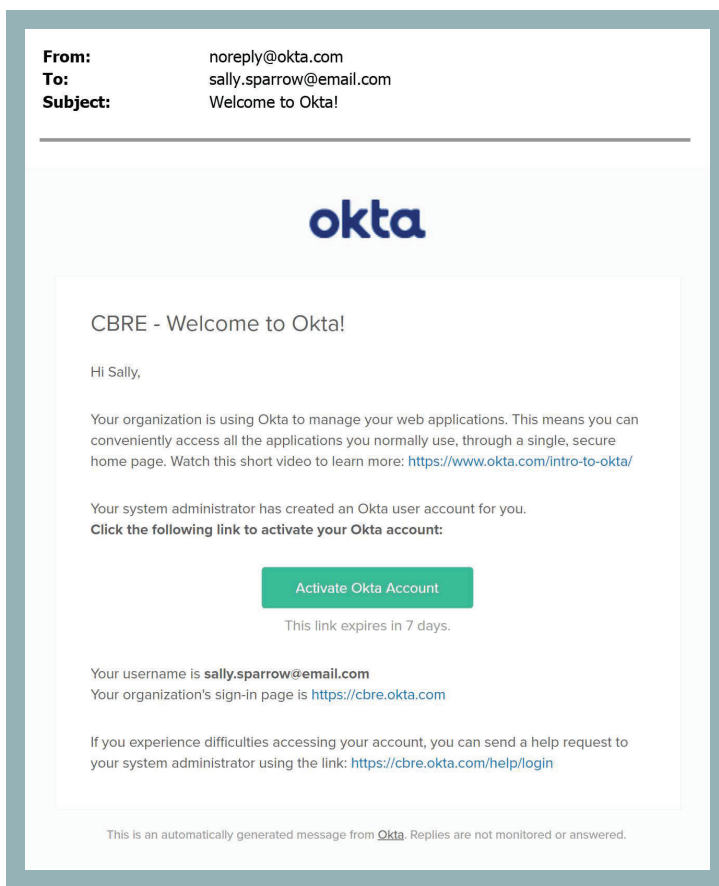

Field	Value
Loan number (9 digits)	686362756
Origination date	[Calendar Icon]
Borrower entity name	SIT AMET, LLC
Relationship to loan	Principal Owner
Last payment amount	67355.12
Billing address	7668 Vivamus Avenue
Address line 2	Suite 100
ZIP code	13945
City	Madison
State	OK

3. When you have entered all of the required fields, select **Register** to submit your request for a new account.

Account confirmation email

If we are able to verify your registration information directly against our database, you will be sent a notification email from security provider Okta to the address you provided with a confirmation link to activate your account and set up your password and multifactor security. The activation link will be valid for seven days from registration. If you do not receive this email (please check your spam folder) or if your activation link has expired, contact Customer Service for assistance.

If we are not able to verify your registration information immediately, your request for an account will be sent to our Customer Service team for processing. You will receive an email confirmation of your pending request, and our team will be in touch to assist with your account setup.

Setting up your password and security preferences

Your activation link will take you to a screen where you can create your password and configure other security settings to enable you to more easily reset your password in the future. You can modify these settings in the future by visiting the **Settings** menu from within the portal.

Password Creation and Security Setup

CBRE

Welcome, Sally!
Create your account

Enter new password

.....

Password requirements:

- At least 10 characters
- A lowercase letter
- An uppercase letter
- A number
- A symbol
- No parts of your username
- Does not include your first name
- Does not include your last name
- Your password cannot be any of your last 24 passwords

Repeat new password

.....

Choose a forgot password question

What was the first computer game you played?

Answer

Oregon Trail

Add a phone number for resetting your password or unlocking your account using SMS (optional)

Okta can send you a text message with a recovery code. This feature is useful when you don't have access to your email.

Add Phone Number

Click a picture to choose a security image

Your security image gives you additional assurance that you are logging into Okta, and not a fraudulent website.

Create My Account

Enter new password

Following the requirements outlined on the screen, select your new account password. When logging in, you will use this password along with the email address you provided at registration as your username.

Choose a forgot password question

When choosing a security question, you can select from the provided stock questions or pick “Create your own security question” to write your own. Please choose a question you can answer precisely later.

Add a phone number for resetting your password or unlocking your account using SMS

Adding a mobile phone number is optional and provides a backup method for you to recover a lost password. If enabled, you will receive a text message at this number to verify your identity if you are ever locked out of your account.

Click a picture to choose a security image

When you change or reset your password, we will display the image you choose so you can confirm that you are on the correct website.

Configuring multifactor authentication

After your account is approved and your password is created, you will be prompted to configure a second method of verifying your identity when you log into your account.

You have four options available:

SMS authentication

The most common option, it requires access to a mobile device capable of receiving text messages.

Voice call authentication

Another common option, it requires a phone number where you can receive an automated voice call with a one-time code for you to enter into the site.

Okta Verify mobile application

If you have an iOS or Android device, you can install the Okta Verify application, which can either generate a one-time code or accept push notifications allowing you to authorize the login directly from your device.

Security key or biometric authenticator

This option requires that you log in from a device capable of biometric authentication (such as through fingerprint or facial recognition) or that you possess a physical security key (such as a USB or Bluetooth fob) that you can access from your device. Touch ID, Face ID and Windows Hello are common biometric authentication methods.

You are required to configure at least one of the four options. Setting up additional methods provides you with more flexibility to log in securely from a variety of devices.

Multifactor Authentication Options

CBRE

Set up multifactor authentication

Your company requires multifactor authentication to add an additional layer of security when signing in to your Okta account

**Okta Verify**

Use a push notification sent to the mobile app.

Setup

**Security Key or Biometric Authenticator**

Use a security key (USB or bluetooth) or a biometric authenticator (Windows Hello, Touch ID, etc.)

Setup

**SMS Authentication**

Enter a single-use code sent to your mobile phone.

Setup

**Voice Call Authentication**

Use a phone to authenticate by following voice instructions.

Setup

Logging into your account

From the homepage, enter one of the nine-digit loan numbers associated with your account and select **Submit**. Include numbers only—no dashes or spaces. On the next screen, enter your username (the email address you provided at registration) and your account password and select **Sign In**.

Entering Your Loan Number and User Credentials

The image shows a login interface with two main sections. The left section is for entering the loan number, featuring a text input field labeled 'Loan Number' with a small lock icon to its left, and a dark 'Submit' button below it. The right section is titled 'Welcome' and contains a 'Username' input field, a 'Password' input field, a 'Remember me' checkbox, a dark 'Sign In' button, and a link that says 'Need help signing in?' at the bottom.

Next you will be prompted to select your authentication method. If you configured more than one option, you will see a dropdown arrow that lets you choose which method to use.

SMS message or voice call authentication

To initiate the SMS message or voice call with your one-time access code, select **Send code** or **Call**. Once you have received the code and have entered it, select **Verify** to enter the site.

Okta Verify mobile application

If you are using the Okta Verify application, you can choose to send a push notification to your phone to approve the login, or you can open the app to generate a one-time code. You may also be prompted to select an additional number from a list based on what is displayed on your screen.

Security keys

For physical security keys and biometric access, please follow the instructions provided by your device.

Entering an Authentication Code

Okta Verify (iPhone)	SMS Authentication	Voice Call Authentication
		
Okta Verify (iPhone)	SMS Authentication	Voice Call Authentication
(+1 XXX-XXX-XXXX)	(+1 XXX-XXX-XXXX)	(+1 XXX-XXX-XXXX)
Or enter code	Enter Code	Enter Code
Send Push	Send code	Call
